Fasade Sør

Eksisterende bygninger er hovedsaklig oppført i teglstein. Ny fasade oppføres i mørk grå liggende sinuspanel. Nedre felt (1,2 m) av fasaden oppføres i teglstein med tilsvarende struktur og farge som eksisterende stein slik at den nye fasaden integreres visuelt med den eksisterende bygningsmassen.

Nye fasader Torp Marinepark (Torp bruk)
